$50 SPECIAL CASH OFFER CLOSES; MISS INEZ JAMISON WINS PRIZE

In a competition, the closeness of which was remarkable, Miss Inez Jamieson won the special $50 cash prize offer for the seven-day period ending February 27, which closed at 10 o'clock Friday night.

Both districts saw competition keen and close, but it remained for district No. 1 to stage the most spectacular race of all, with competition in district No. 2 extremely close and strong in district No. 2 the competition was strong and would have required much less than a six-year subscription to have changed the result—in fact, the difference was the matter of only three years in subscriptions. Other runners up were mighty close to attaining their objective. In another instance just a couple of years would have changed the complexion of the winning column so close was the special competition.

Runners Up With More Credits

Old and new subscriptions counted on the $50 special offer. In this competition it might be well to say that a candidate with less points than the special prize winner secured, could, and in some instances are, standing better from a credit standpoint than the winner of the $50. A little mathmatics will easily demonstrate this point for you. So get this, the fact that a candidate wins $50 in extra money does not make it follow that the candidate is an outstanding leader in his or her district.

The winner of the $50 special is announced today, but the number of points made by the winner will not be announced before the close of the campaign on March 31st.

The $50 special race is over and was awerded last Saturday, February 28th. The special competition is history. Nine days from today, at midnight, the big $75 extra special prize, and the biggest credits of the entire campaign end. Candidates have just a little more than one week to go, nine days to "cinch" for themselves the prize of their choice. Today is anybody's race. If there is anybody's race. If there is a single candidate including the winner of the $50 special prize, who imagines he or she has a lead to boast about, that person is bound to be disappointed.

CEMENT PROVES POPULAR CHOICE FOR HIGHWAY

Following arguments that lasted for more than two hours last Monday night, cement proved the popular choice for the material to be used in building the shoulders of the highway. The discussion last night was the culmination of a longe series of meetings by the property owners of the highway to decide what type of pavement was desired for building the shoulders of the highway through Redwood City.

At a meeting held several months ago two types of paving were proposed; one a cement concrete manufactured of the cement of the local plant; the other an asphaltic concrete manufactured in Los Angeles. A committee appointed to investigate the relative merits of the pavements went to Los Angeles and examined the asphaltic pavements and returned a report in favor of that type of construction.

Petitions were circulated by both sides and a large number of the property owners signed both petitions. At the meeting Monday evening new petitions were produced in favor of the cement type of paving, and the Southern Pacific Co., one of the largest property owners on the highway wrote a letter advocating the cement paving.

When the total frontage of property represented on the various petitions was figured out by the city engineer it was shown that 7662 feet of property were represented on the petition for the asphaltic paving and 6872 on that favoring the local product. As a number of property owners had signed both petitions it was found 3401 feet of property was duplicated in the petitions. All of the property owners present who had signed both petitions who were present at the meeting on Monday night stated that they had first signed the asphaltic petition as they thought that that would aid in getting the highway paved, but that later when the cement petition was presented they had signed that as the preferred type of paving. It was, therefore, found that the majority of the owners desired the cement paving.

A motion was made by Trustee Ryan and seconded by Trustee McNulty that the cement type of pavement be used. In making his motion Ryan made clear to both sides that he had no preference one way or the other and merely acting for the wishes of the greater number of property owners concerned. McNulty expressed the same idea in seconding the motion. The action of the board was unanimous.

A number of reports were received from the Redwood City Planning Commission concerning proposed changes in town. Te commission reported favorably on the abandonment of a portion of Arlington road in the new Edgewood road tract, the abandonment of certain streets in the Ligouri tract, building a spur track to Henry Beeger's oil plant on Chestnut street; and unfavorably on the inclusion of a triangular piece of property between Brewster and Broadway on the east side of Arch street in the business district.

The latter recommendation was supplemented by a letter from the commission stating that after passing their recommendation they had reconsidered the matter and had favored the inclusion of the property at any time that the owners could show that they were ready to build business buildings, and on the condition that the property to be included in the fire zone as well as in the business zone.

Julius Smith of the firm of Whitcomb and Smith, was persent and spoke in favor of the inclusion. Smith represented the owners of the property, he stated. He had a client who was anxious to have a building erected on the property for the purpose of erecting a drug store. C. D. Jessup, one of the owners of the property, was also present and urged the inclusion of the property in the business zone. The board took the action recommended by the Planning Commission. It was agreed that at any time the owners can show the board that they intend to erect a suitable building on the property that it will be placed in the business district.

John Morey of the Peninsula Building Materials Company, was present before the board with a petition for permision to erect a gravel and sand loading plant on the highway between Hopkins and Whipple avenue. Morey explained that there would be no chrusher or other objectionable machinery operated here. The petition was granted.

MISS MARTHA NORMAN PASSES AWAY WEDNESDAY

Miss Martha Norman, a resident of this city, passed away Wednesday at the Community hospital. She had been ill for many years and had been in the hospital for several months.

Miss Norman was a nurse and during her long residence here had been a constant source of help. Wherever there was need of her she had gone willingly and had risked her own health and sacrificed her own time and comfort to be of help to others. Like many others who sacrifice themselves, however, she was allowed to spend her old age in want and died penniless.

The deceased was a native of England and was 87 years of age. The funeral will be held today from the parlors of Layng and Tinney Co. Rev. Clay of the Episcopal church will conduct the funeral. Interment will be in Cypress Lawn cemetery.

REV. R. J. CURRIE GUEST OF CHURCH CABINET

The birthday of Rev. R. J. Currie pastor of the Congregational church here was made the occasion of a reception and party by the church cabinet with the pastor as the guest of onor. A pretty feature of the party was the presentetion to the pastor of a large basket of flowers by little Peggy Lou Doxsee and Carol Woodhams. An interesting program followed.

The committee in charge consisted of Mrs. Dave Moore, Mrs. Clifton Woodhams, Mrs. E. L. Whitehead, Miss Florence Bellas and Miss Sally Nelson.

FIRE

5,950 Little Lives Snuffed Out by Fire

What a ghastly fate! Five thousand nine hundred and fifty happy, trusting little lives snuffed out last year—needlessly sacrificed to the ruthless demon—FIRE. And with this appalling toll comes an almost unbelievable loss in property. Five hundred million dollars destroyed by fire in 1923. Another half billion dollars in economic waste followed in its trail.

How can you be sure that but that some loved one of yours may be the next victim? How can you know but that the property you are responsible for may be attacked next? For where there is inflammable material the fire hazard is always imminent.

Don't wait until grim tragedy visits you. Don't wait until the accusing finger of willful negligence singles you out. For there is adequate protection. Invest in a good extinguisher. See that your flues are clean, and in good order, and above all see that your ELECTRICAL WIRING is installed properly. It has been found that some of the older style fixtures become loose and will suspend on the small fixture wire. This is dangerous. Another practice is to operate electric irons off of fixtures. Every iron should be operated from a properly installed convenience plug placed in the wall. Of course you may say that you have done this for years and had no fire, but remember the 5,950 who did.

A phone call will immediately bring a man to your home to give you any electrical information you desire. There is no charge for this service.

FLOATING CEMENT PLANT BEING BUILT

A cement plant which will be a novelty in several respects is now under construction and within a short time will be in operation in this vicinity. The new plant, unlike any hitherto built will have no fired location but will be built on a series of huge steel barges and will be moved from one part of the bay to another.

The new plant will use shells and clay for the manufacture of cement as does the Pacific Portland Cement plant here, but instead of hauling the shells to the plant on scows as is done in the plant now in operation, the new plant will be moved to the shells and will operate wherever the shell beds are found.

It is also understood that a new process has been worked out by which the processes of manufacture will be materially shortened and the output corespondingly increased. What the new process is, has not been announced yet and is being kept a secret by the builders of the floating plant.

The great pontoons or barges on which the plant will be built are now under construction in the Moore shipbuilding works in Oakland. The date set for the completion fo the plant has not been announced, but when finished it is understood, that the new plant will operate in the southern part of San Francisco bay, dredging the shells on both sides of the bay.

EARL EICKERINKOTTER HAS ODD MALADY

Earl Eikerinkotter of the James Crowe Co. is confined to his home with a malady which has not before come to the attention of physicians. He seems to be suffering with a case of the flu, but with complications which made his condition extremely critical for some time.

Eikerinkotter first noticed a pain in his head and later was taken with severe spasms and was at time unconscious. Dr. Herbert Clattenberg was called in attendance and called other doctors in conference. The condition of the patient is now reported to be much improved but he is still under the care of the doctor and two nurses.

WOODSIDE

Already the summer residents of Woodside are planning on their return to their summer homes. Lawrence Harris and family will be back on April 1; William Roth and family departed on Wednesday for a month's stay in Honolulu, after which they will return to Woodside; James J. Fagan and family have gone to Arizona for a short stay and will occupy their home here upon their return; Mrs. Samuel Pond and children are still in Europe but are expected to return by the first of June.

Our radio colony was awake early on Wednesday morning in order to be able to hear all of the presidential inauguration program. Those without receiving sets or doubtful of the efficiency of the one they had took the occasion to pay a visit to their neighbors. James Huddart, who has one of the more elaborate sets entertained sixteen of his friends to breakfast to make sure that no part of the program should be missed.

William Barg, brother-in-law of James Neuman, has given up his business in Oakland and will take an active part on the business of Neuman Brothers. He will make his home, for the present with the Neumans.

The Canyada road is being repaired once more. This time it is promised that a more lasting job will be done. As one of the terminii of the Skyline boulevard it is deserving of more cars than it has heretofore received.

Dr. Keenan has been extensively improving his place here during the winter in preparation for his occupancy this summer.

James Wilkie who has made himself popular as the employee of Neuman Bros. has entered the employ of Beck Brds.

John Volpiano met with his hsual run of bad luck this week. He was riding a sled attached behind a new Fordson tractor recently acpired by Alfred Perpoli. Perpoli, who was driving the tractor, endeavored to discover whether it could equal the speed of his Parkard roadster. John berame alarmed at the momentum and considered that the ground was a safer plale for him than the sled, so he sought the ground. But he found it first with his shoulder instead of with his feet with the result that he fractured his left shoulder blade and collar bone. And since one connot study with bones broken, John must needs take a vacation from high school, which he considers a part of his bad luck.

Mrs. Albert Meyer was called to Oakland on Friday by the very serious illness of her father.

A. A. Hosford received a visit recently from his brother whom he had not seen for fifteen years. The brother came up from Imperial Valley to renew the acquaintance.

The older boys of Woodside contested in a game of baseball on Sunday with a team recruited at Las Lomitas and won the game with a score of 8 to 7. Alvin Hallett pitched for the local team.

SUIT TRANSFERED FROM YOLO

The siut of Mabel F. Hilldebrant, administratrix of the estate of William H. Hulings against Mary E. Hulings of this city, has been transfered to the Superior court of Yolo county to the court of this county. The suit was originally filed by W. H. Hulings who died during the pendency of the suit.

W. H. Hulings and Mary Hulings were husband and wife but had been divorced since September 14, 1894. It is stated in the case that Hulings hand bank account amounting to $6,157.51 in Woodland banks and five shares of stock in the Bank of Italy.

It is the contention of the plaintiff in this action that Mrs. Huling, while her husband was ill and was weakened in body and mind had him removed to her sanitarium here and while still ill had him give her his money. The defendant claims that Huling had never supported their children and that the money was given to meet tihs obligation.

EAST PALO ALTO

The Runnymede Womans Club met Wednesday afternoon and reports were made by several working committees. Mrs. C. Christiansen reported from the San Mateo-San Francisco annexation meeting and the club went on record as favoring the investigation being made by Stanford and Berkeley universities. $20.70 was reported by Mrs. L. Follett to be the net returns of the card party of last month. Plans were made and money voted for different lines of philanthropic work and it was voted to invite the president of the county federation to speak at the next meeting. The members will meet next Wednesday to tie three comforters which are being made as a donation to the detention home. After the business session a program was presented by Mrs. W. A. McElhattan, the following numbers being enjoyed:

Solo—"Love's Old Sweet Song" by Mrs. Earl B. Clark, who responded with an encoree; Irish poems were read by Miss Mary Wilkin. Ena Honeyman favored the members with fancy dancing, and Mrs. R. L. Armstrong of North Palo Alto, sang the "The Tumble Down Shack at Athlone" and "Killarney."

Several of the East Palo Alto people met last Friday evening and listened to a talk on the benefits if the Grange, a national organization of about a million members, and a Grange was instituted. H. A. Craig, a state and national organizer, had been in the community a few days in charge of the meeting and organization of the order. Officers were elected: W. S. Wardlaw being elected master and committees on by-laws and arranging for permanent meeting nights were appointed. The organization will accept members for a radius of several miles in both San Mateo and Santa Clara counties; and inasmuch as both counties and this community, particularly, was especially interested at this time in the Dumbarton bridge, it was voted to name the Grange, "The Dumbarton Grange." The nearest grange is Mt. View, with a membership of approximately 300. They will meet for their next meeting, Monday evening, March 23, but after this month it will be the 1st and 3rd Tuesdays.

The cast for the Community Players' play, "Mr. Bob" are rehearsing Tuesday and Thursday evenings of each week. They are to present it on March 28th, the proceeds to be used to purchase scenery for their plays.

Netherton of Webster street and expects to return to California after a short visit in Reno.

PESCADERO MAN INHERITS FORTUNE

Fate seemed to smile on "Big Bill" Ferris of Pescadero this week, and the financial worries of that picturesque resident of the coast side seem to be over, for this week, Percy, better known as Big Bill, suddenly found himself heir of a large fortune, the existence of which he never suspected.

Bill has been a resident of the seaside town for several years. During his stay there he has worked as a laborer and ranch hand and has managed to eke out an existence by doing odd jobs.

But hard work is no more for Percy Ferris. Dr. C. V. Thompson, in looking over a San Francisco newspaper, noticed an advertisement for a missing man by the name of Ferris, and the description suited Big Bill. The ad stated that a large fortune awaited the missing man. Dr. Thompson ansewered the ad and shortly afterwards Dr. F. Frank Ferris of Cincinnatti, Ohio, arrived in Pescadero to meet his brother.

Dr. Ferris has been seeking his brother Percy for many years, has advertised in various parts of te country, and in 1915, accompanied by his parents came to California in search of the missing brother.

Big Bill was esconced in the St. Faurcis hotel with his brother. He was supplied with slippers and a dressing gown and is being shown how to take life easy in the fashionable hotel. The brothers left Monday to return to Ohio and will visit the family home built 99 years ago by Big Bill's grandfather, and now owned by his elder brother. The family now consists of eight boys and three girls.

Bill said he was sorry to leave Pescadero and the many friends there wish him all the joys of life in his new sphere.

BUS COMPANY HEADS SUED BP STOCKHOLDERS

Suit was filed in the Superior court here this week by John Rehe against the Peninsula Rapid Transit Company, W. H. Pearson, H. W. Regan and other directors of the company. The plaintiff is a minority stockholder in the company, having 1250 shares of stock. Pearson and Regan hold 7477 and 6722 shares respectively.

It is the contention of the plaintiff in this action that Pearson and Regan have taken advantage of the positions they hold to vote themselves excessive salaries. Pearson it is stated, draws a salary of $750 per month as president and Regan as vicepresident a salary of $650. It is also charged by Rehe that Pearson has had his son, F. B. Pearson appointed superintendent of transportation at a salary of $250 and that Regan had his brother given a position at the San Jose terminal of the line at a salary of $250. The company had already two men at San Jose, it is claimed in the complaint, who were able to take care of all of the business there.

The complaint also charges that the salary of E. W. McLellan, secretary of the company, is excessive. McLellan receives $75 per month for work which the complaint states occupies him only one evening a week. The salary of $12.50 per meeting for directors is also attacked in the suit. Rehe charges that the directors receive this amount whether present at the meeting or not. The case of one director who has not been present at a meeting for two years is cited.

The plaintiff asks for an accounting by the directors of the company and also seeks to have the court fix the salaries which should be paid for the amount of work done by the various defendants.

LOCAL REALTORS SEEK EXTENSION

That the Alameda de las Pulgas should be connected and made into a highway to supplement the present system of highways through the county was the contention of a group of local real estate men who appeared before the board of supervisors at their meeting Monday. The local men appeared in the interest of the Real Estate Association of this city.

C. N. Holt first addressed the board in the matter and pointed out the fact that the present Alameda de las Pulgas is a series of short roads in various states of repair and seperated by short distances of private property. The advantages of securing rights of way across this private property was shown. With the exception of three or four such gaps the Alemeda would form a continuous road from San Mateo to Los Altos. Several of the owners of land which at present blocks the connecting of the various links of the roadway would give the right of way, said Holt.

H. C. Tuchsen also addressed the board in the matter and asked that the county engineer survey the right of way and report to the board as to the feasibility of the project. Supervisor Hickey spoke in favor of the proposal and said that this work should have been done years before. He stated that if this end of the county can secure the continuation of the Alameda as far as San Mateo he felt that the people in the north end of the county would see that it was continued north. If so, it would form a highway paralleling the present highway and would in a great measure relieve the present congestion. District Attorney Swart also spoke encouragingly of the propositno.

District Attorney Swart warned the board that a firm from San Diego was endeavoring to have gum vending machines, which were in reality a variation of the nickel in the slot machine, placed in this county in violation of the ordinance prohibiting such machine. The firm threatens to defy the law, said the district attorney, and he wished to warn the merchants of the county against any representatives of this concern, as money spent on such devices will be thrown away as the law strictly prohibits them.

A communication was received from the Burlingame chamber of commerce that that body, through its secretary, expressed its thanks to the board for the aid given them in their fight for the Bay Shore highway.

A letter from Mrs. Tavalle, formerly nurse at the Community hospital, was received. Mrs. Tavalle stated that as she had taken no vacation while at the hospital, she would like the supervisors to give her full pay for Febriary, although she had only worked four days. The board declined to take action.

District Attorney Swart presented the proceedings for three bond elections which had been held by school districts in the county. The board passed resolutions prepared by the district attorney for the issuance of the bonds.

Bids were opened by the board for the improvement of the road between San Gregorio and Pescadero. The contract was let to W. W. Thompson of this city, his being the lowest bid offered. The bids received were as follows:

W. W. Thompson	$48,850.00
Jas. Costello	57,750.00
A. J. Greer	49,700.00
Associated Constr'tion Co	49,600.00

Bids were also opened for the construction of a bridge across Cordeleras creek in the Second township. As H. F. Myers was the lowest bidder for this work his bid was accepted. The bids offered in this work were as follows:

C. B. Cowden	$4,286.50
John P. Daley	4,061'00
Frank Bryant	3,589.40
A. Mattson	4,167.00
Meller and Van Horne	4,032.95
Renner Foundation Co.	3,975.00
H. F. Myers	3,086.00

Reports were received from the various county officers.

THE SCHOOL ELECTION

ON March 20 the residents of the Sequoia Union High School District and the Redwood City Grammar School District will be called upon to cast their ballots for trustees as the term of two trustees of the former and one of the latter expire at that time.

In the grammar school the term of John Poole will expire. During his many terms of service on the school board Mr. Poole has shown his interest in the affairs of the school and his ability as a trustee. There is little likelyhood that he will meet any opposition at this time John Poole is the right man in the right place.

In the high school district the terms of two of the able members of the board will expire. James Hedge has served as clerk for the past two years and in that capacity has given largely of his time and efforts to the good of the school. Mr. Hedge has served as clerk of the board for the past year and in that capacity has given largely of his time and efforts to the good of the school. Mr Hedge is a graduate of the institution he now serves.

L. H. Brown, the other member of the Sequoia board whose term will end at this time, is a resident of Ravenswood and has well and ably represented that fast growing district, which sends many students to the Sequoia High School.

The present board of trustees of the highschool have conducted the affairs of the school in a business like and orderly manner, and the school has developed and prospered under their supervision. We hardly believe that there will be any contest for these positions, as the services of the men now in office have been well appreciated. But we believe that the voters of the district should go to their school houses and give these men a large complimentary vote. If any opposition should arise we believe that the voters would look far to find men who will serve their districts more ably and unselfishly than the present incumbents.

MILESTONES OF SERVICE

LUTHER BURBANK, today passes the seventy-sixth milestones of his life, another milestone of service for mankind. In his home at Santa Rosa, Burbank has been laboring for years to produce something new for mankind, to show the world how to raise better fruit better grain or more beautiful flowers. That he has been richly rewarded with success his products show But behind and beyond his creations of fruits and flowers the grand old man at Santa Rosa has been creating another marvel, far more beautiful than his finest blooms He has been working on a creation from the start, albeit unknown to himself, and his results there make his other triumphs pale and fade. For living his own life, Burbank has built a creation of rare beauty, a flower that will last throughout eternity.

The beauty that the plant wizzard has striven to express in flowers has reacted and implanted itself in his soul. His life has been an inspiration to all who have had the pleasure of his acquaintance, and long after the last of Burbank's flowers have run out their course and reverted to the primitive stock, the memory of the poet who wrote his verse in color and form in the flowers of our dooryards will be remembered.

LONG DISTANCE INAUGURATION

WHEN President Coolidge took the oath of office last Wednesday he addressed an audience exceeded by a great many million people more than any other president had ever spoken to on similar occasion. Literally millions of persons; in their homes; on the streets; in halls; in churches; and in the schools listened to the president and his voice was as clear in Redwood City as in the plaza before the capitol thousands of miles away. A magic undreamed of by previous generations picked up the words of the nation's executive and placed them in our homes as loud and clear as when they were spoken.

While the president's voice was being carried across the continent in the air, a shutter clicked in a camera in Washington; a picture was made. Seven minutes later that picture was on the press of San Francisco newspapers, after a journey across the continent on a wire. The evening editions of the San Francisco newspapers carried the same pictures that appeared in the Washington papers at the same time.

Every invention makes the world smaller. When a man can speak personally to every person in the United States what a power is in his hands. The inventer has placed a great force at the hands of humanity. That power entails a proportionate responsibility. It is to be hoped that all who are given the opportunity of speaking to the vast audience which Calvin Coolidge did, will find as much worth while to say.

THE DISTRICT ATTORNEY

WE had the pleasure this week of hearing the district attorney of this county in a short and informal talk before a group of men of Redwood City. His remarks were straightforeward and to the point. He spoke in the interest of the forces that tend to build up and improve a community. He spoke of the dignity of office. Not the shallow self importance of the small man in a large place, but a dignity apart from the man in the office which inhers in the office itself. A standard for which the officer should strive; to make himself worthy of his position.

We have always admired Frank Swart, the district attorney of this county, for his frank and outspoken, yet kindly manner. We are glad that San Mateo county has in the office of district attorney, a man who not only appreciates the dignity of the office he holds but is determined to maintain that dignity even at the expense of favor, if need be.

It is always a pleasure to see a man eminently fitted for an office in that office. It is also a pleasure to see a man who is willing to stand for what he knows to be right even in the face of his enemies. We believe that a man who is giving the best he has in him for the county he serves, deserves encouragement. Therefore, we repeat, we are glad that San Matec county has Frank Swart.

NEW RECTOR WELCOMED AT DINNER GATHERING

Clergymen from San Mateo and Burlingame, as well as San Francisco, gathered at the Woman's Club of Redwood City on Tuesday evening to welcome Rev. Albert E. Clay of Philadelphia to his new rectory at St. Peter's Episcopal church of this city.

Addresses of welcome, songs by Mrs. H. S. Clattenburg, and a violin solo by S. Tinker, accompanied by Professor Richards, organist of the Congregational church, were included in the program during the supper.

Plans for the new church edifice to be constructed at the corner of Clinton and Brewster avenue were discussed following the dinner. Rev. Clay will succeed Rev. Edward H. Molony as rector.

Picture of Chief Justice Taft administering the oath of office to President Coolidge in Washington, D. C., Wednesday, March 4th. The picture was furnished the Times-Gazette through the courtesy of Manager J. D. Worthington of the Pacific Telephone & Telegraph Co. of Redwood City.

The purpose of the present test is to demonstrate the capabilities over transcontinental distances of a new system of electrically transmitting pictures devised by the Bell telephone engineers. Four cities are connected together for the purpose of this test, the arrangements being such that pictures will be sent from Washington, D. C., to New York, Chicago and San Francisco simultaneously. The length of the telephone line between Washington and San Francisio via New York is about 3600 miles, the greatest distance over which pictures have ever been transmitted electrically and the transmission time is only seven minutes.

This system of transmitting pictures electrically was first publicly tested in essentially its present form in May, 1924. The present demonstration is in anticipation of the opening of a transcontinental picture transmission service shortly to be announced by the American Telephone & Telegraph Company.

Required Years of Work

The system is a development of the engineers of the American Telephone & Telegraph Co., and the Bell Telephone Laboratories, Incorporated. It is the outcome of work covering several years and provides a simple, rapid and accurate picture transmitting system which will operate over a telephone line. The apparatus represents the association of many recent inventions by telephone engineers together with standard types of telephone and telegraph apparatus which have been readapted to this new use.

The simplicity of the method is such that a positive transparency film is suitable for transmission. The aparatus is so designed as to transmit a picture five inches by seven inches in seven minutes. The picture is received in such form that, after photographic development of the usual sort, it is practically undistinguishable from an ordinary photograph and is ready for newspaper or other reproduction. Line drawings, hand writing, and printing can also be transmitted. As films can be used for transmission while still wet, this system eliminates the delay which would otherwise be caused by drying and by making special sending plates.

Method Used

The film upon which a picture has been transferred is inserted in the transmitter simply by rolling it up in a cylindrical form. During operation a very small and intense beam of light shines through the films onto a photoelectric coil within. The film is rotated at a uniform speed and by means of a screw mechanism is caused to advance parallel to the axis of the cylinder. The motion of the light relative to the cylinder is therefore the same as that of a phonograph needle relative to a cylindrical record. In this way each minute portion of the picture in turn affects the intensity of the light reaching the photoelectric cell. This variation in the amount of light striking the sensitive surface of the cell gives rise to a current which, through the agency of a vacuum tube amplifier and modulator, controls the current flowing through the telephone line.

At the receiving end an unexposed photographic film is rotated under a beam of light in a manner similar to that at the transmitting end. The two films are caused to rotate at exactly at the same speed.

A new device regulates the amount of light reaching the film at the receiving end.

Regarding the use of their system, the officials of the American Telephone and Telegraph Co. announces that the extent to which it is installed on their various long distance lines will depend entirely upon the demand which arises for this type of service. As has been demonstrated in previous tests, the system is also applicable to radio transmission of pictures when atmospheric conditions are such that steadiness of transmission and freedom from interference can be assured.

The Cost of Service

ON the loyalty and skill of the human element depends the character of telephone service. The providers of this service must not only meet the market prices for materials. They must also maintain at any cost a high standard of workmanship.

Because of advancing prices, the telephone dollar goes only half as far as it did ten years ago. More than three-fifths of this dollar is necessarily expended for wages. Less would neither attract nor hold the high-grade workers essential to maintain America's standards.

That Bell telephone rates have advanced much less than other prices is largely due to economies in methods and apparatus that have been developed and introduced. It is also because the proportion of operating plant built at pre-war prices is still large, though this is steadily decreasing because of new construction made necessary by the nation's telephone needs.

Million Credits Easy To Get Now

WIN EXTRA $75 BY FRIDAY NIGHT

Make Sprint While Efforts Count Big

Time Now to Use Your Head as Well as Your Feet. Think, Work and Win.

Only a week to go. In just a few days over a week the Times-Gazette "Everybody Wins Something" gift giving campaign will be history, and the credit value of subscriptions will be cut.

After 11 p. m. next Friday—on March 13—subscriptions will count less credits. Never again will subscriptions count so much. A lead at the start of the second period will be more easily maintained. The "other fellow" will find that it takes more subscriptions after March 13 to go the same distance.

Worth Third as Much

And the final period—well, subscriptions are worth then about one-third the number of credits they are today. It will take some three subscriptions to count what one does right now.

The last few days of the big credit period are here. The more aggressive and enterprising candidates have decided they can well afford to devote as much time as possible to the big period still in effect.

Collect Early Promises

Most candidates are right now at it collecting in the promises made earlier in the campaign. Others are going back to their friends who have previously subscribed to get them for another year or two.

Never again after 11 p. m., March 13, will it be possible to secure full credit value of subscriptions. If you desire one of the larger awards, do not fail to turn in every subscription you possibly can before March 13. You don't have to wait until the end of the period. You can do it tomorrow, or better yet, today.

"Cinch" Your Gift

A very few long term subscriptions turned in NOW may be the very ones you need to "cinch" the prize of your choice.

NOW is the time to do the big things, NOW is the time to GET UP in the race and STAY THERE. NOW is the time to make every minute count—nothing else.

REMEMBER that too, 510,000 credits are allowed on a six-year subscription if turned into the office before 11 p. m. March 13. Get out your pencil. Do a little figuring. Two six-year subscriptions with club credits provide you with over a million more credits.

A six-year subscription, which sells for $15, counts 16 points on the special offer. Therefore, 2 six-year subscriptions count thirty-two points on the special, extra side competition which ends Friday night at Eleven o'clock.

It should be fully understood that this is not a "beauty" contest or a "popularity" contest, but a strictly legitimate competitive sales proposition for enterprising men and women and one in which no element of chance enters. One feature of this competition is the fact that every active participant is bound to profit.

To The Public

Now is the time to help your favorite. Your subscription given to your favorite NOW means more credits than it will later in the campaign. And credits win. Unlike most campaigns the credits in the Times-Gazette campaign for subscriptions decreases as the campaign progresses There will be absolutely no bonus credits other than those already published in the schedule, at any time after March 13, the close of the first and all-important Big Credit Period. Show your favorite what real friendship means by doing him or her a kindness now that will mean real cash for the candidate. Don't forget the second payments. If you have already given a subscription—give a second year and it will count 24,000 credits NOW. For but $2.50 more your time be extended for another year.

REMEMBER—BIG CREDITS END FRIDAY NIGHT, MARCH 13, AND THE $75 EXTRA CASH PRIZE IS FOR BUSINESS UP TO FRIDAY NIGHT OF NEXT WEEK, MARCH 13.

Time For Action

The days for work—the days for subscription getting — are here. Monday is one day. Tuesday is another. Friday will be here soon. Then will you "cinch" the gift you want Your work from now until 11 p. m. Friday, March 13th, will do more for you probably than any other like days in the whole campaign—providing you are up and at 'em.

Every day finds the close of the big credit period drawing nearer. Soon it will be only a matter of hours. Eleven p. m. March 13, will be here before you realize it. Don't let the end of the first period catch you without a big increase in your credit score.

JUST A WEEK MORE FOR THE BIG CREDITS. IT is time now to use your head as well as your feet. It is time to pile up credits that will be hard to overcome. Yes, it is time now to go in and win your gift. THINK! ACT! DO! WIN!

Cash In On Big Credits

By keeping up a fast pace until 11 p. m. Friday, March 13, candidates will be able to cash in on the "Flying Start Offer," which includes 100,000 extra credits on every $15 worth of subscriptions. There is, too, the special "First Subscripitlon coupon" for 20,000 free credits and 250,000 extra credits if the candidate produces three one-year subscriptions or equivalent the first week after accepting nominations.

Eleven p. m., March 13, marks the end forever of the big credits. There will be no time later in the race when subscriptions will count for so many credits as they do now. Those who do their best now will have a decided advantage over the candidate tardy in getting started.

Campaign Plan Easy

There is one part of the campaign plan that is especially pleasing to all candidates, and that is that the awards are offered for meritorious work in obtaining subscriptions for the Times-Gazette. Every active candidate is guaranteed at the very least a cash commission of 20 per cent on every dollar he or she turns in to the Times-Gazette in subscriptions. For those who do better than the rank and file there are purses of gold and silver and for those who are leaders, who demonstrate the best business-getting ability for the Times-Gazette, there are big, beautiful automobiles, valued at $1075 and $1385.

Today, is Saturday. Friday night at 11 o'clock the special prize offer ends. All candidates in campaign headquarters at the Times-Gazette office when the clock strikes eleven Friday night will be waited on. However, don't come at 11 o'clock and expect to have points counted to your credit. Understand this now and then have no regrets. Seven days to go.

Announcement Extraordinary

$75

To Be Given For Work Done Before March 13th

A cash award of $75 will be given to the candidate scoring the greatest number of points on subscriptions turned in before the close of the first period, March 13. All subscriptions turned in between 8 a. m. Saturday, February 28 and 11 P. M. Friday, March 13, will count on this special offer.

All candidates start on even terms at zero. Every candidate will have an equal chance at this special prize. Points are scheduled as follows:

1-Year Subscription credits	1 point
2-Year Subscription credits	3 points
3-Year Subscription credits	7 points
4-Year Subscription credits	9 points
6-Year Subscription credits	16 points

NEW SUBSCRIPTIONS WILL COUNT DOUBLE POINTS

This award is in addition to all other prizes, cars, radio, and cash prizes. The $75 special prize will be given for points made between Saturday, February 28, and Friday, March 13.

All first period credits, club credits are given regularly on subscriptions turned in up to and including March 13, as well as credit points on the special offer. This offer does not interfere in the least with winning the prize you started out after, in fact, it will help you, for while you are winning an extra $75 you will be piling upa total of credits that will carry you to the top of the list for a final dash for a car.

The special prize offer and the first period will close at 11 o'clock Friday night, March 13. These are absolutely the biggest days of the entire campaign—just a golden opportunity, that's all.

EXTRA

100,000 Extra Credits

Every $15.00 club of subscriptions, either NEW or RENEWALS, will entitle you to 100,000 EXTRA credits in addition to the usual credits at the time each subscription (see regular schedule) is turned in.

This big 100,000 offer coupled with the present liberal schedule, is the biggest and best credit offer of the entire campaign. Subscriptions are worth more credits these next few weks than they ever will be again.

A $15.00 club may include subscriptions of any length of time up to six years.

A candidate has the privilege of turning in more than one club. Two clubs, for instance, would net you 200,000 credits. As soon as you complete your first club, you start on your second.

Subscriptions may be secured anywhere. Candidates are NOT restricted to their own district. You can obtain subscriptions from friends and acquaintances in any district, any town, city or state.

The $15.00 does not have to be turned in all at one time. You can turn in the subscriptions as you secure them. Accurate record is kept at the Campaign Department. The total 100,000 extra credit ballots are issued at the close of the offer for the EXTRA votes due.

This 100,000 offer is the biggest and best offer that will be made.

If you have entered the campaign, here is your chance to make a fine beginning, and you have just started, let this build your way to success. Let this vote offer put you in the lead.

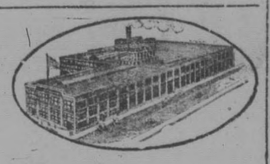
Fairly Warned

A country paper once said: "E. B. Doolittle is in the habit of stealing pigs and robbing hen roosts. If he does not desist we shall publish his name." This reminds us of the minister who said: "If the lady with the blue hat, red hair and cross eyes doesn't stop talking she will be pointed out to the congregation."



Cleaning Without Odor by the

F. Thomas *Process*

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes

INTERPRETS MOTHERHOOD DIFFERENTLY

Vera Lewis in the role of Mrs. Quinn, in "The Dark Swan," coming Next Wednesday and Thursday, March 11 and 12 to the Sequoia Theatre, gives a different interpretation of motherhood than the usual one portrayed on the screen.

Instead of the sweet, white-haired old lady with whom film fans the world over are familiar, Mrs. Lewis shows how selfish and jealous a mother's love can be insofar as her own child is concerned.

The role of Mrs. Quinn is a comparatively new one on the screen The theatre-going public has been educated to theidea that motherhood is in reality sainthood and that a mother can do no wrong.

In "The Dark Swan" the illusion is destroyed. Like thousands of other mothers, Mrs. Quinn schemes and plans her daughter, Eve's, future with a selfish, cold disregard for others whom she preends to love, so that her child's wants will be taken care of at the expense of the other's happiness.

In addition to Miss Lewis, the cast is composed of Marie Prevost, Monte Blue, Helene Chadwick, Arthur Rankin, Lilyan Tashman, Mary McLaren, Carlton Miller, Vera Lewis and John Patrick.

It is a Warner Bros. Classic of the Screen, adapted from the famous "best seller" by Ernest Pascal.

CORINNE GRIFFITH IN TENSE LOVE ROLE

Screen Star Scores Big Hit With New Type in "Love's Wilderness"

A new Corinne Griffith will be introduced to movie-goers by First National next Monday and Tuesday, March 9 and 10 when "Love's Wilderness," her latest picture will be screened at the Sequoia Theatre.

Corinne's roles, hitherto, have veered from the frail orchid of the society drawing room type to the frayed rose of poverty, but never before have her scenario writers hurled her against the primitive drudgeries of life.

And that is where the surprise lies in "Love's Wilderness." Led by the vagaries of a restless heart, Corinne is confronted with the hardships of the Canadian wilds.

The change in environment enables the little star to reveal new channels of histrionic ability formerly suppressed. It affords her opportunity to cast off the languid beauty of wealth and ease and lend drastic action to her work. The result has been that Corinne enacts perhaps the most tensely dramatic role of her career on the screen.

The story, by Evelyn Campbell, introduces the star as a romantic young Southern girl whose disappointment in love leads her to elope with a comparative stranger. The husband, played by Ian Keith, abandons her during a blizzard in the Canadian wilds and she battles for her life with the elements.

Finally regaining her Southern home, she weds her first love (Holmes Herbert), in the belief that she is a widow. The climax is reached when, on a honeymoon in the South Sea Isles, she is confronted by Keith and discovers her terrible mistake.

The ending of the story, is of course, for you to see.

Both Herbert and Keith have done some excellent acting here, as have others of the cast. These include Maurice Cannon, an importation from the comedy stage of Paris, France; Emily Fitroy, David Torrence and others.

Director Robert Z. Leonard has provided some unusually beautiful settings, particularly in the jungle scenes. The picture is the work of its star's own company, the Corinne Griffith Productions, Inc.

Unknown Plague

Authorities do not know definitely just what disease was referred to as the plague in Athens. According to the description by Thucydides, the plague ravaged Athens in the second year of the Peloponnesian war, 430 B. C. A large percentage of the population had taken refuge in the city and subsequently the number of deaths was great. The epidemic does not seem to have been the real oriental plague.

CARE REQUIRED FOR LAMPS IN THE HOME

No Task Is of More Importance to Housekeeper.

(Prepared by the United States Department of Agriculture.)

No task that falls to the housekeeper's lot is more important, or, if neglected, more disagreeable, than the care of the lamps in the home where no other form of lighting is practical. It saves trouble, suggests the United States Department of Agriculture, to keep the materials used in cleaning lamps together in a tray, box or basket.

Kerosene lamps must be kept clean and filled if they are to burn with a good light and without odor. The reservoir should be filled to within an

inch of the top. The charred portion of the wick should be rubbed off, the char removed from the wick tube and the burner, and the wick turned down just below the top of the tube. The chimney should be cleaned either by rubbing with tissue paper or by washing in hot soapy water, rinsing in clear hot water and wiping perfectly dry; if there is any moisture on the chimney when the lamp is lighted the glass is likely to crack. The outside of the lamp and the shade should be dusted.

TWENTY-FIVE YEARS AGO

From the Times-Gazette of March 3, 1900

The horseshoing business of the late Patrick McCanna will be conducted by George Durham, McCanna's faithful assistant for five years.

The regular meeting of the high School lyceum was held last Friday afternoon in the assembly hall There was a large attendance, and the new officers for the ensuing semester were installed as follows: Frederick Nobbs, president; Miss Myrtle Rossiter, vice-president; Miss Eva Rockwell, secretary; Charles Taylor, treasurer. As a portion of the program a very well contested debate was had upon the question of the silver or gold standard. The debaters were all sophomores and on this occasion made their debut on the rostrum. Messrs Rockwell, Mansfield and McCulloch were the contestants. Silver won the day.

George C. Ross attended the annual banquet of the Sons of the Revolution in San Francisco Thursday evening. Mr. Ross is a prominent member of the society. His ancestry dates back to that eventful period. Mr. Ross' great great grandfather was a colonel in a New York regiment.

James Ralston came over from San Gregorio Thursday. He says the prospects for good trout fishing in that vicinity were never better.

The Fraternal Aid Association will institute a branch of the institution in this city this evening. The new society starts with a fair membership.

B. F. Stewart, a Chicago capitalist spent a portion of the week with his cousin, Mrs. G. R. Hartley.

A. J. Fromm, the good natured proprietor of the Capitol hotel, was united in marriage last Sunday with Miss Mae Smith. Rev. Father Kearns performed the ceremony, which was witnessed by a number of friends of the happy couple. The parlors where the wedding took place were profusely decorated with choice flowers. P. A. Ryan was best man and Miss Smith, sister of the bride, was maid of honor. Mr. and Mrs. Fromm spent their honeymoon in San Francisco, returning Tuesday. The bride is better known in Pescadero, her former home, than in this city, where during her short acquaintance she has made many friends. Since their arrival home, Mr. and Mrs. Fromm have been receiving the congratulations of friends.

SEQUOIA LOOKS TO SPRING SPORTS

Baseball and track season will start in earnest Monday. Boys have been out for some time warming up in their respective sports. With the same team which won the hundred thirty pound championship last year, reporting this year, it looks as if they are due to repeat this season.

About the only possible weakness the team has is the lack of pitchers. Paul Bartlomei and George Gilcrest will hold down the catchers job and the infield will be composed of Ed Lawler, Pat Feely, Al Oneto and Normie Hedge. There is a wonderful wealth in outfield material with Armond Drivon, Al Hallet, Joe Chew, Peggy O'Niel and Jimmie McKay fighting it out for the positions. These mentioned are all of last year's team with the exception of Armond Drivon and are all experienced men. This bunch ought to knock down all of the fences in the league for they are a nifty bunch of hitters.

Track this year shows more promise now than at any previous year. There will be a divsion this season in the different weights. There is to be a hundred, tens, twentys, thirtys and unlimited class. This system makes it possible for boys of an even weight and age to compete with each other and does not give the larger boys the advantage that they had last season.

LEGISLATIVE LETTER

By C. W. TURNER

Sacramento.—Members of the legislature arrived in the capital city full of enthusiasm and as delighted as a lot of school boys after winning a ball game. News that the railroads proposed to pay what they owe the state without further litigation was the cause of unusual exhilaration. Every one felt certain that his pet measure would get through and be signed by the governor, and those extra ten millions were already spent in the minds of many lawmakers.

But the governor only smiles! His friends say that he has no intention of receding from his economy program and, that he will stick as rigorously to his budget as though he did not have an enormous surplus at his command. Instead of spending this extra money, they predict that he will urge upon the legislature the importance of reducing taxation. There will probably be no increase in the tax upon gasoline, which will be a general saving that will affect and reach every one who owns an automobile or a motor truck. Then there may be a reduction in the rate of taxation.

It is said that the fact that the state has run all the years since the passage of the King bill without the benefit of the increase from the two principal taxpayers, the Southern Pacific and the Santa Fe, demonstrates that the higher rate of that measure is unnecessary, and therefore can be reduced. Such is the argument that will be raised in urging a reduction in taxation, and a return to ante-King bill rates, under which the state had been running for years.

The amount which the railroads are to pay by the first of July is only half the surplus cash that the governor will have at his disposal. The two companies named are to pay $8,493,316 in back taxes, representing the increase in rates under the King bill which they disputed. Then there is the interest on that sum which amounts to $1,650,000 and the roads have already paid for the current year (under protest) $2,930,508. But as they have acknowledged the debt in connection with the pending payments, their protest is of course dropped and need not be considered.

It will be recalled that two years ago the governor planned to turn the surplus of the special funds of the self-supporting institutions into the general funds, but the supreme court held that he could not carry out that program. The surplus funds of the various self-supporting departments therefore were "frozen" and could not be touched, either by the institutions or the state. Those funds, now amounting to over $2,000,000, will revert to the general fund and that will make the total surplus over $15,000,000.

To this is to be added a surplus left over from the last budget, estimated at another $1,500,000; so the governor will have a sum of between $16,000,000 and $17,000,000 above the regular income of the state.

It must also be remembered that since the railroads have agreed to abide by the King bill in future, the revenues of the state can be estimated upon the income which that measure yields, and there is also the interest which the state can secure from loaning its surplus funds, which must be done for not less than 2 per cent. Although the money market is low, even at that figure it should be able to secure another half million in interests.

This means that aside from the revenue that the state has been receiving in the past there will be something like $20,000,000 additional in the next two years on the right side of the ledger.

No state in the union, and no country in the world is in such a splendid financial condition as California and yet no state has spent more on public improvements, upkeep of public institutions and progressive measures than this commonwealth.

Certainly, regardless of politics, and administration or anti-administration sentiment this is a condition of affairs which Californians can all rejoice to see.

Certainly there could be no better advertisement for the state; even its climate is not so great a drawing card.

The members expect that when the apportionment measures and one or two other strongly controversal subjects are settled, the session will close and it is predicted that it will not last later than Easter.

Governor Richardson has issued to Mrs. Florence Kahn her certificate of election to congress from the Fourth California district. She succeeds her late husband, Congressman Julius Kahn.

Jess Lewis, employed on the H. E. Dickson ranch at Roadsley, was literally blown to pieces when a box of dynamite which he was using in blasting trees exploded.

Of more than a score of bills amending election laws, Senator Hurley has offered one which provides for the consolidation of the presidential and state primary elections. Instead of having one primary in May and another in August, it is proposed to have a single primary on the third Tuesday in May.

FORMER LOCAL PRIEST CHOSEN FOR SAN CARLOS

A Catholic church will be established in San Carlos within the next month, Father Conlan, former pastor in Redwood City, will head the church. A committee to take charge is being appointed by Archbishop Edward J. Hanna of San Francisco. The new parish will also include Belmont and a portion of Beresford. Father Conlan was pastor of Mount Carmel church twenty-five years ago. For several years past he has held a pastorate in Marin county. Another new Catholic parish is to be established at Broadway. It is to be made of territory taken from Burlingame and Millbrae. The rapid growth of the peninsula necessarily demands churches and the more churches, the better will be the community.

SEASONABLE FOODS

This is the time of year when scrapple tastes good on a cold morning for breakfast. This is another way of preparing it:

Scrapple.—Scrub four pigs' feet and put them with two pounds of liver into a kettle and cover with boiling water; boil one-half hour on the stove, then put into the fireless cooker until night. Reheat again and return to stay overnight. In the morning cool to remove the fat, take the meat from the bones and chop. Strain the liquor and bring to the boiling point, add corn meal and cook as mush. Stir in the chopped meat, season well with salt and pepper and pour into bread pans. When cold slice and fry.

Bohemian Buns.—Dissolve a compressed yeast cake in one-half cupful of warm water, add one cupful of scalded milk cooled, two well-beaten eggs, two tablespoonfuls of butter, one teaspoonful of salt. Mix with three or four cupfuls of flour, kneading to a smooth elastic ball. Set to rise overnight. In the morning turn on a floured board, knead and roll to one-half-inch thick, cut with a small biscuit cutter and place on a buttered sheet. Brush with butter, and in the center of each place a spoonful of prune jam; let rise until light and bake in the oven until a light brown.

Onion Omelet.—Mince four large onions, put into a frying pan with good salad oil. Fry brown, let them get cold and add to the omelet when the omelet has cooked well on the bottom. Fold and serve.

Veal Loaf.—Put through the meat chopper three pounds of raw veal, four large crackers, mix; add two tablespoonfuls of butter, three eggs beaten and mixed with three tablespoonfuls of water and milk or all milk, one teaspoonful of sage, two of salt and a few dashes of cayenne. Form into a loaf, bake in a moderate oven two or three hours, basting often with butter and water. Slice hot or cold.

Makes Auto Go 49 Miles on One Gallon of Gas

SIOUX FALLS, S. Dak.—James A. May of 4404C Lacotah Bldg., has perfected an amazing new device that cuts down gas consumption, removes all carbon, prevents spark plug trouble and overheating. Many cars have made over 49 miles on a gallon. Any one can install it in five minutes. Mr. May wants agents, and is offering to send one free to one auto owner in each locality. Write him today.

REPORT OF HORTICULTURAL COMMISSIONER

Contrary to the general opinion, wet weather does not lesson aphid attacks and as they are already appearing an various plants, it is likely that they will be numerous quite early this spring. Growers of vegetables, particularly of peas and horse beans, should watch carefully and begin spraying or dusting at the first appearance of aphis. If dusting is resorted to, I wish to repeat my many previous warnings that the use of nico-dust, less than the socalled No 8 strength, is not effective in this climate. The fact that weaker strengths are cheaper should not be taken into consideration for they will not destroy the pea aphis except in warm locations.

Roses, as well as vegetables, are apt to be severely infested with aphis this year. A nico-dust containing sulphur may be used on these and the sulphur will assist in keeping down the mildew which is also usually prevalent during a damp season.

In conjunction with the manufacturers, we intend to test the efficacy of calcium cyanide in the controls of aphids as soon as conditions are favorable for a trial. Growers should not attemtp the use of this material until it has been thoroughly tested for this section by this office. While it has been used successfully in other localities on some plants, it has never, to my knowledge, been used to any extent on pear. Being extremely poisonous, it must be handled carefully; also it will cause severe burning to foliage if there is any moisture present.

Lime-sulphur cannot be used much longer at winter strength as most trees will be sufficently advanced as to be injured by its use. It should be discontinued as soon the buds commence to open. Bordeaux mixture may, and should be used where it is desired to control brown rot in stone fruits or scab on apples or pears. It also helps to control curl-leaf of peach trees and should be used if the use of lime-sulphur for this disease has been neglected.

The rainy weather has materially delayed planting, especially of fruits and consequently nursery stock has not arrived as freely as might have been expected. But 35,000 strawberry plants were inspected this months and 4842 fruit trees, whereas there were 99,000 strawberry plants and 17,255 fruit trees inspected during the same period of 1924. Total shipments inspected during the month were 848 of which 722 were from within the state. The total trees and plants contained in these shipments was 131,095 of which 722 were from within the state. The total trees and plants contained in these shipments was 131,095 of which 124,793 were from California points.

Respectfully submitted,
A. W. TAITE, JR.,
Horticultural Commissioner of San Mateo County.

Also, that four inch vitrified saltglazed ironstone pipe lateral or side sewers with wyes of the same material be constructed along the line of said proposed sanitary sewers herein mentioned and described in such number and in such locations as the same are more particularly shown upon the plans hereinafter referred to, which said laterals or side sewers shall extend from the said proposed main sewers to the curb lines of said streets and alley;

EXCEPTING from all of the herein proposed work and improvements such work and improvements of a like nature heretofore done and completed to the official lines and grades and in accordance with the plans and specifications hereinafter referred to.

ALL of the herein proposed work and improvements shall be done and made in accordance with and to the lines and grades as the same are shown upon the plans and in the specifications heretofore and on this 16th day of February, A. D. 1925, adopted by this board therefor, entitled, "Plans and specifications for the construction of sewers in a portion of Laurel Street, in a portion of Cherry Street, and in a portion of the alley running through Block eleven, as said block is shown on that certain map entitled "Amended Map of the Town of San Carlos" filed in the office of the County Recorder of the County of San Mateo, State of California on the 2nd day of October, A. D. 1912, and recorded in Volume eight of Maps at pages No. 25 and 26 thereof, San Mateo County Records, within San Carlos Sanitary District of San Mateo County, which streets and alley are more particularly shown on the plans hereunto attached and made a part hereof," which plans and specification were by this board then and there adopted as the official plans and specification for the doing of said work and making of said improvements herein mentioned and described, and which plans and specifications are now on file in the office of the Secretary of this board and to which reference is hereby made for further particulars concerning the description, location and extent of the work and improvement and the boundaries of said district herein mentioned and described. And

WHEREAS, said contemplated work and improvement, in the opinion of said board of trustees, is of more than local or ordinary public benefit, by reason whereof said board hereby makes the expenses for the doing of said work and making of said improvements chargeable upon the district hereinafter described, which said district shall be known and is hereby designated as the "Assessment District" therefor, and said board hereby declares said district to be the district benefited by said work and improvement and to be assessed to pay the cost and expenses thereof, which said district is more particularly bounded and described as follows, to-wit:

BEGINNING at a point on the northeasterly line of Laurel Street distant southeasterly one hundred feet along the northeasterly line of said Laurel Street from the southeasterly line of Cherry Street; thence southwesterly, parallel with and keeping a distance of one hundred feet southeasterly at right angles from the southeasterly line of Cherry Street, to a point distant one hundred and fifty-five feet southwesterly from the southwesterly line of said Laurel Street; thence northwesterly, parallel with and keeping a distance of one hundred and fifty-five feet at right angles southwesterly from said southwesterly line of said Laurel Street, to a point distant one hundred and thirty feet southeasterly from the southeasterly line of Cypress avenue; thence northeasterly, parallel with and keeping a distance of one hundred and thirty feet southeasterly at right angles from the southeasterly line of said Cypress Avenue, to the southwesterly line of said Laurel Street; thence northwesterly along the southwesterly line of said Laurel Street ten feet; thence northeasterly, parallel with and keeping a distance of one hundred and twenty feet southeasterly at right angles from the southeasterly line of said Cypress avenue, to a point distant one hundred and sixty-five feet northeasterly from the northeasterly line of said Laurel Street; thence southeasterly, parallel with and keeping a distance of one hundred and seventy-five feet southeasterly from the southeasterly line of said Cypress Avenue, to the northeasterly line of said Laurel Street; thence southeasterly along said northeasterly line of said Laurel Street, to the point of beginning.

All of said property being within the San Carlos Sanitary District of San Mateo County, State of California.

Notice is hereby given that serial bonds bearing interest at the rate of seven (7%) per cent. per annum from their date shall be issued in the manner and form provided by the terms and provisions of an act of the legislature of the State of California, designated "Improvement Act of 1911," as amended and now in effect, to represent assessments of twenty-five ($25.00) dollars and over for the cost of said work and improvement, said bond shall extend from their date over a period of nine (9) years from the second day of January next succeeding the fifteenth day of next November, following their date and an even annual proportion of the principal sum thereof shall be payable by coupon on the second day of January every year after the fifteenth day of the next November following their date, until the whole is fully paid and the interest shall be payable semi-annually by coupon on the second day of January and July respectively of each year after their date at the rate of interest aforementioned on all sums then remaining unpaid. Upon such bonds and after the fourteenth day of May in any year and on or before the fourteenth day of the following November the first interest coupon shall become due and payable on the second day of the next succeeding January, and upon such bonds date after the fourteenth day of November of any year and on or before the fourteenth day of the following May the first interest coupon shall become due and payable on the second day of the next succeeding July.

All of the herein proposed work and improvement shall be done pursuant to the terms and provisions of an act of the legislature of the State of California designated "IMPROVEMENT ACT OF 1911," approved April 7th, 1911, as amended and now in effect.

REFERENCE is hereby made to the RESOLUTION OF INTENTION No. 2 of said board of trustees declaring its intention to order said work to be done and improvements to be made for further particulars, on file with the Secretary of said board.

NEWS OF MENLO PARK

Last Saturday William and Robert Golder, retired merchants of San Francisco, visited the scenes of their childhood in Menlo Park, "Where smiling spring its earliest visit paid and parting summer's lingering blooms delayed." They were surprised to see the rapid growth and prosperity of their former home. Their father, the late Louis Golder, was Menlo Park's first business man and the first to start a hotel here. He owned the Merrill block and there had a splendid hotel and vast gardens and attractive grounds. Here came the elite of the peninsula and San Francisco. Many a cold bottle and hot bird were enjoyed there by such men as Milton S Latham, Governor Stanford, Alvinza Hayward and other notable financiers of that time. Picnic parties from San Francisco excursioned here to enjoy an outing in the Golder gardens where a dinner fit for the gods would be served. A grape arbor extending from the highway to very close to the railroad was an attractive sight. The row of business houses along Santa Cruz avenue have taken the place of the arbor. When the grapes became ripe in the fall the harvest would begin. The school children would be pressed into service and help pick the luscious fruit from which sparkling wine would be made. Mr. Golder has long since faded into the midst of the invisible, but the impress of his character and achievements still remain.

James Artino, the local enterprising merchant, contemplates the erection of another two-story building on his property adjoining the Artino block. Mr. Artino is Menlo Park's biggest boomer.

Yesterday the U. S. Senate appointed Senator Shortridge a member of the committe on finance, the most important committee of the upper house. Senator Shortridge is expected home from Washington on March 12.

Walter Gale, who has been here from Los Angeles for the past two weeks visiting his mother, will leave today for his home. Mr. Gale is an oil magnate of the south.

The Southern Pacific Railroad Co. is removing its gates from crossings in many places along the line of the road. The gates have been removed from the Oak Grove crossing and the little gate house has been removed to the other side of the tracks from its former position. Many believe this is the first move towards constructing the other tracks for the electric line. For over a year the company has been rights of way on both sides of the tracks, and they all been secured.

Assembly Bill No. 79 introduced in the assembly some time ago has reached the second reading. It has to do with boundary lines permitting municipalities to extend into territory in another county. It is believed it was framed by a Palo Alto man for the purpose of taking in Menlo Park and adjoining territory. The people of Menlo Park would have to vote on annexation, should they be permitted by the passage of the act to do so, and we doubt if such an election would carry.

Clarence R. Walter, fire commissioner, will be a candidate to succeed himself at the election to take place next month. Mr. Walter has been a faithful and energetic official and should receive a unanimous vote. He takes a pride in the local department, giving much time to the work and has done a great deal towards making the fire department of the most efficient in the state.

Miss Lauretta Harrington returned from a vacation spent at New Orleans and other eastern cities. The young lady spent some time at the Grand Canyon. She had a most delightful trip.

Mrs. Mary Toomey, formerly Miss Mary Gale, visited friends here this week. Mrs. Toomey recently lost her husband after a short married life. Miss Gale spent her girlhood in Menlo Park, where she was accounted the most beautiful woman on the peninsula. She is still very young and has all the charm and bewitchment of her girlhood. Mrs. Toomey resides in San Francisco.

The St. Patrick's Day entertainment on Monday evening, March 16, promises to be the very best performance ever presented to the citizens of Menlo Park. Excellent talent has been secured so that the program will be replete with thrilling numbers from start to finish. The orator if the occasion will be Horace Amphlet, editor of the San Mateo Times. He is one of the ablest public speakers in thet county. It will be a treat to hear him. Pupils of Helen Robinson's dancing school, San Mateo, will take part. Mrs. Harry Zimmerman, the noted warbler of Redwood City, will sing. Roy Folger, the comedian, is to take part. Frances Gray of San Francisco will send her class of Irish dancers to participate. Miss Emily McCarthy and Miss Agnes Sullivan are to perform on the piano. Other talent has been secured for the occasion. The complete program will appear in these colums next week. Buy your tickets early and avoid the jam at the doors on the evening of the forth-coming entertainment.

Miss Nora Sullivan, sister of Judge J. F. and Matthew I. Sullivan, wo left on Tuesday for a pilgrimage to Rome with a large San Francisco party was Menlo Park's first school teacher, having taught a parochial school here in the middle seventies. The Catholic church was then located in Menlo Oaks and the rear of the edifice was used as the school. Many old timers here attended and they are now descending the hill of life, but they cherish a fond memory of their old teacher who wielded the rod with wirmness in these bygone days. Her old pupils wish her a pleasant voyage to the Eternal City and a safe rturn to her native land. Senator Milton S. Latham was then in heydey of his glory, his surburban home being the show place of the peninsula and located not far from the school. The estate is now the property of Timothy Hopkins. The superintendent of his vast stables was the late Joseph Sullivan and with his family, the pretty teacher boarded. The superintendent had two charming daughters, bright and talented. The two girls and the teacher would romp across the fields of the estate every morning to the school to be met by a hoppy throng of boys and girls, ready to begin the day's toil.

Miss Sullivan was a gifted and clever educator, knowing how to impart knowledge to her pupils who loved her dearly. Many of her scholars have since become prominent in the affairs of the state and nation. Father Dempsey, who was then the pastor of the church and living at San Mateo, and who organized the school, often visited the classes and many an erring youngster regretted his visit for the priest would severly punish any one found straying from the path of rectitude. The school was conducted for a long period and until the grammar school was started. Miss Sullivan secured a position in the San Francisco school department, where she remained up until a short time ago, retiring to enjoy the fruits of her labor. Although the three Sullivan girls were unusually winsome and pretty, they never married and the friendships begun at the school remained throughout the years firm and strong, increasing as the days went by. There was a movement on foot some years ago to secure a reunion of the old pupils but the affair fell through. We refrain from mentioning the names of the former students as many of them are ladies and some may be sensitive concerning the possible disclosure of their age, for it is now upwards of 50 years since the school started. Their feelings are hereby taken into consideration. It has been said by an ancient misogynist that a woman rarely has a birthday after her eighteenth anniversary until she reaches 76 when she is willing to have her age become known. The ladies who attended the school have passed their eighteenth milestone, but have not yet reached the other limit, hence our kind consideration.

A groceteria is to be started soon in the Coxin block, in the corner store recently vacated by Mr. Peterson. This makes four groceries in town, which shows that the business of eMnlo Park is growing.

James G. Mason will be a candidate to succeed himself as trustess of the Menlo Park grammar school at the forthcoming election. He has held the position for the past twenty years with credit to himself and the district. The people owe him a debt of gratitude for the faithful performance of his duties and his loyalty and devotion to the school. Mr. Mason gives his time and labor to the district unstintingly and asks no reward but the appreciation of the people which they show by electing him each term without opposition.

The local real estate men were kept on the jump last Sunday attending to the wants of intending purchasers. The beautiful day brought many from the city who desired to build homes in Menlo Park. Many sales were made.

Through the efforts of Senator Samuel M. Shortridge, Congress has appropriated $10,000,000 for additional facilities for the United States Veterans' hospitals throughout the country, a portion of the money will be used at the Base hospital here to to put in additional beds to the number of 650.
